IEEE IS'10 Special Track on

Intelligent Patient Management

The 5th IEEE International Conference on Intelligent Systems IS'10.

07-09 July 2010, University of Westminster, London, UK

http://is.ieee-ims.org/

Call for Papers

IEEE IS'10 is sponsored by the IEEE Computer Society (IEEE Instrumentation and Measurement Society) and the University of Westminster, is the 5th international meeting committed to bringing together specialists in the broad area of intelligent systems.

The aim of this truck is to consider recent practical and theoretical approaches and new research directions in the broad area of Intelligent Patient Management for measuring and modelling, managing and evaluating health and social care systems.

Topics include but not limited to: Patient Flow; Capacity Planning; Healthcare Information Systems; Management of Patient Care; Clinical Decision Support Systems; Knowledge-based Systems and Data Mining

Deadlines:

Submission of draft papers: March 03, 2010
Notification of acceptance: April 04, 2010
Submission of final papers: April 26, 2010
Registration: April 26, 2010

Chairs

Elia El-Darzi United Kingdom; Sally McClean United Kingdom

Program committee

Abdelhakim Artiba France; Sondes Chaabane France; Florin Gorunescu Romania; Adele Marshall United Kingdom; Nadine Meskens Belgium; Christos Vasilakis United Kingdom
